TAKE IMPORTANT TOWN AND DRIVE BULGARS BACK

Victories by Both French and British in Serbia Revive Hope With Allies as to the Balkans. Bulgarians Lose Important Town and Were Forced Back—Winston Churchill, Formerly First Lord of the British Admiralty and Who Recently Resigned From the Cabinet, Left for the Front Today to Participate in the Fighting—He Is a Major in His Regiment. Heavy Artillery Action Reported Along Italian Front—Survivor Swears the Ancona Was Fired On After Stopping—British Commander at Dardanelles Recommends Giving Up Expedition.

[By Associated Press.]
London, Nov. 18.—Important successes both for the French and British in Serbia have been reported unofficially from Athens.

The Bulgarians are said to have lost Kasturino to the French and to have been defeated by the British along the Valandovo-Rabrovo front.

Winston Spencer Churchill, former First Lord of the Admiralty, today departed for the front clad in the uniform of his regiment, in which he is a major. His wife bid him farewell at the railroad station, where he was unrecognized as he waited to enter his special car.

Mr. Churchill left the Cabinet recently after having been relieved of the most important post in the admiralty several months earlier. Failures of British expeditions were blamed against him.

Rome reports great artillery activity along the whole Italian front.

The charge is made that the Austrians destroyed the country conquered by the Italians, and that numerous towns of the Isonzo plains are in ruins.

Washington, Nov. 18.—Notice of direct contradiction of the Austro-Hungarian statement that the Ancona was not shelled by the submarine after it stopped, was received by the State Department today in the affidavit of Dr. Cecil Grell, the only American survivor of the disaster in the Mediterranean last week. Consular dispatches told of the affidavit.

[By Associated Press.]
New York, Nov. 18.—The first payments of the syndicate members from all over the country to the \$500,000,000 Anglo-French loan were made here. The checks were drawn against a deposit of \$70,000,000 in the National City Bank, which represents the syndicate call for the payment of 15 per cent of the total subscription to the loan, allowing for discounts from par and other charges.

The funds were turned into the bank by J. P. Morgan & Company for the account of the agents of the British and French governments. Total deposits of the National City Bank yesterday rose to \$537,000,000, which exceeds by \$19,000,000 the bank's previous high record.

PEOPLE HAD NO DRINKING WATER

Allies Made Discovery—Canadian Engineers Are Providing Water Supply.

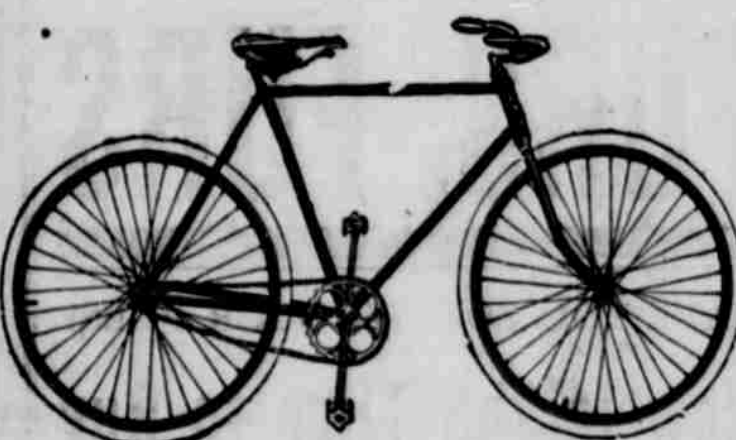

London, Nov. 18.—(Correspondence of the Associated Press.)—When the first British naval forces landed at Lemnos, near the entrance of the Dardanelles, they were surprised to find that the island, which has an area of nearly 200 square miles and a population of 20,000, was practically destitute of drinking water, except for uncertain supplies from a few small springs. The allied troops were supplied with mineral water sent in shiploads through the generosity of a French woman in Marseilles.

The British authorities promptly sent to Canada for engineers, who are now engaged in sinking artesian wells which will guarantee the people of Lemnos a reliable and abundant water supply.
